II. BIS INTRODUCTION

- 1. BIS REGULATION**
- 2. REGULATORY NOTICE**

BIS REGULATIONS

As a quality management organization in India, it plays a role in granting quality certification and industry standard for products sold and distributed in India.

The BIS product certification system aims to guarantee the quality, stability, and reliability of products for end consumers. (Items example: more than 180 items including Electronics & IT, Solar, Toys, Steel & Iron Products, Textiles, Chemicals & Petrochemicals etc.

Visit www.bis.gov.in to get the information you need, including BIS mandatory items, certification process information, Q & A and submission forms.

REGULATORY NOTICE

NOTIFICATION

New Delhi, the 12 October 2018

S.O. 5259(E).—Whereas the Central Government had issued “Solar Photovoltaics, Systems, Devices and Components Goods (Requirements for Compulsory Registration) Order, 2017” vide S.O 2920(E) dated 5 September 2017 for six products included in the Schedule with the date of coming into force with effect from 5th September, 2018. And whereas, after having discussions with the various stakeholders including the Bureau of Indian Standards (BIS), the date of coming into force of the said Order was advanced to 16th April 2018 on the condition of self-certification by manufacturers for products at Sl. No. 1-3 in the schedule annexed to the order applicable till 30th June, 2018 published in Gazette of India notified on 16th April, 2018 vide S.O. 1602(E), which was revised vide S.O. 2183(E) published in Gazette of India on 30.05.2018 extending the self-certification relaxation for products at Sl. 4-5 also.

2. And whereas, the industry sought more time for compliance to the order and whereas the issues involved were discussed with related stakeholders, the self-certification was further extended to 4th September, 2018 vide S.O. 3449(E) published in Gazette of India on 13.07.2018 exempting module manufacturers whose annual module production capacity is less than 50MW for BIS registration for two years provided they have a valid IEC certificate obtained before 16/4/2018 and for products needed replacement in projects set up earlier, which was further extended to 20th September 2018 for all products listed in the order vide S.O No. 4787(E) published in Gazette of India on 12th September 2018.

3. And whereas, the industry has sought more time for compliance to the order and whereas the issues involved have been discussed with the stakeholders including the Bureau of Indian Standards (BIS) and test labs recognized by the BIS, it is hereby notified that the date of self-certification relaxation stands extended to 1st January 2019 from 20th September, 2018 for all items with dates of implementation indicated against each product in the schedule annexed for smooth implementation of the order, with the standard IS 16221 (Part I) listed against item at Sl No. 4 in the principal order dated 5.09.2017 excluded from the order.

Sl. No.	Product	Indian Standard Number	Title of Indian Standard	Date of Implementation
(1)	(2)	(3)	(4)	(5)
2.	Thin-Film Terrestrial Photovoltaic (PV) Modules (a-Si, CIGs and CdTe)	IS 16077 : 2013	Thin-Film Terrestrial Photovoltaic (PV) Modules - Design Qualification and Type Approval	1st January, 2019

2	Government Charges	INR 53000/-	20% discount for MSME companies
3	Professional Charges	As Actual	Call at: 0-804-803-68-69

POINTS NEED TO BE CONSIDERED

1

BIS Registration is only given to the factory, not office or liaison office. If you have multiple factories located at a different address geographically in the same country, you need to apply for the BIS registration respectively from those multiple factories.

2

- Select BIS recognized testing organization and an experienced compliance partner to assist you. While choosing a laboratory for testing of product, the accreditation of the lab should be valid and not suspended, and at any time laboratory shall not be in middle of or about to get audited.

3

- Before shipment of samples, make sure complete arrangements have been made for the entire shipment from your location to the testing laboratories door.

4

- All documents should be signed by the manufacturer, brand owner and Indian Representative and in addition documents should be notarized and stamped by the brand owner and Indian representative.

5

- Test report is valid for 3 months/90 days before its expiry test report should be submitted to BIS. In case, if you are unable to submit the report to BIS (Bureau of Indian Standards), then you have to submit the new sample again for testing.

6

- All documents shall be ready before the testing of the sample. Also there should be a dedicated authorized person with technical knowledge to coordinate at various stages.

7

BIS normally takes about 15 days to approve the registration. In some cases, it may vary like it can take 30 to 60 days which is a more realistic timeline to expect if the Bureau norms & timeline varies for any reason or the BIS laboratory delays sample testing due to slot unavailability.

APPENDIX I

AIR ROLES & DUTIES

FOR DOMESTIC MANUFACTURER

- ✓ The domestic manufacturer can directly apply to BIS without nominating Authorized Indian Representative (AIR).

FOR FOREIGN MANUFACTURER

All foreign applicants have to appoint Authorized Indian Representative widely known as AIR. The nomination of AIR shall be varying as per followings:

- ✓ If the manufacturer has the liaison office /branch office in India, then they will become the AIR.
- ✓ If the manufacturer does not have the liaison office /branch office in India, but the proprietor / registered user of the brand/trademark appearing on the article is located in India, then the Brand/Trademark owner will become AIR.
- ✓ If the manufacturer does not have a liaison office located in India, and there is no proprietor /registered user of the brand/trademark appearing on the article located in India, then the other entity will become the AIR.

AIR ROLE & DUTIES

- The manufacturer shall nominate and appoint a person as his authorized representative located in India after obtaining all necessary permission or sanctions, if required, under the Indian laws, setting out the terms and conditions of such appointment in writing, whose nomination shall be duly communicated to BIS in writing.
- The authorized representative may either be in-charge or a senior officer of the Indian office, or a legally appointed agent of the manufacturer in India. The nomination by the manufacturer shall be given on letterhead in the format prescribed.
- The form containing nomination of the authorized representative by the manufacturer either at the time of execution of this agreement or at the time of fresh appointment during the continuation of this agreement shall also contain the signature of such authorized representative who has been so appointed, in token of his consent and confirmation of the terms and conditions of this agreement and to signify his willingness for compliance of various provision of agreement/ BIS Act, 2016, and rules and regulations thereunder.
- The INDIA authorized representative appointed shall be deemed to be a person having ultimate control over the affairs of the manufacturer for the purposes of this agreement and as such shall be responsible for all due compliance of terms and conditions of this agreement as also provisions of BIS Act, 2016 and the rules and made thereunder and shall continue to be so till another authorized representative is appointed in his place in accordance with the terms of the agreement.
